SAFE KIDS are no accident!

The Right Way Primary Grades

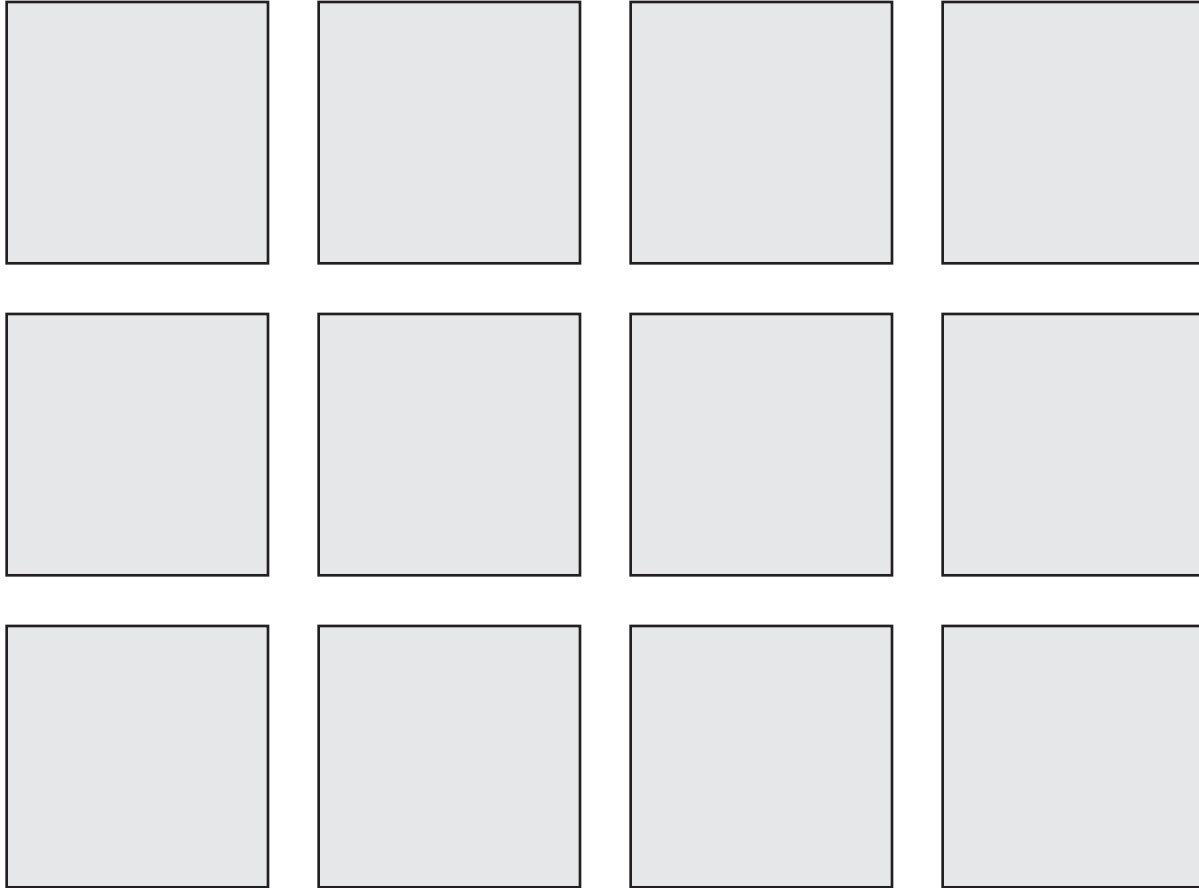

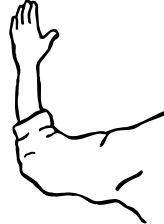

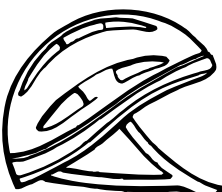

Design your own helmet

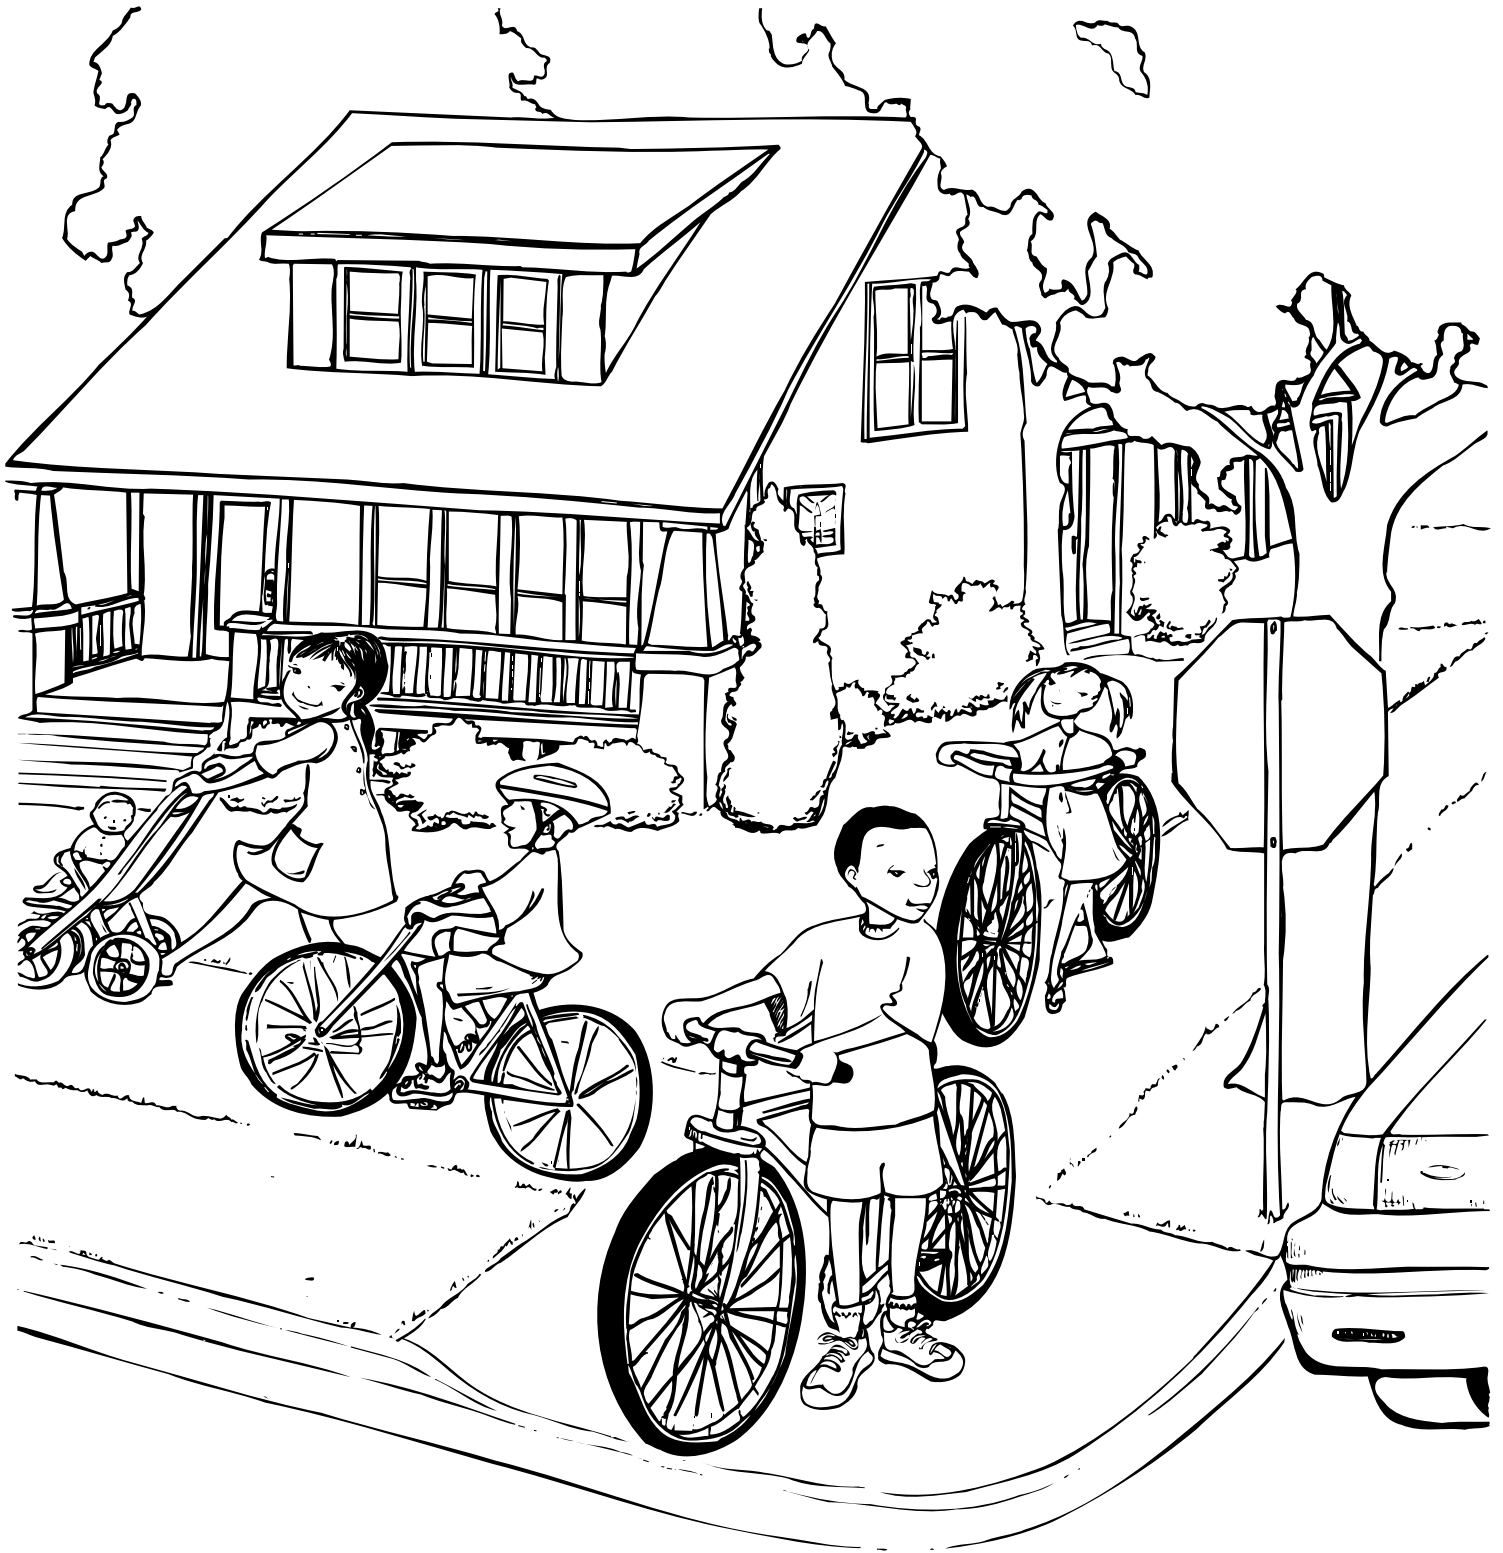

Bike safety concentration

SAFE KIDS are no accident!

1. Cut out the squares at the bottom of the page.
2. Shuffle the cut squares and place them, words down, on top of the shaded squares below.
3. Turning over just two squares at a time, try matching words and pictures that are Bike Safety Rules.
4. When you get a match, keep the words face up. If you do not get a match, turn over the squares and try again. Keep trying until all the squares have words of pictures showing.

Left Turn	Right Turn	Stop	Helmet	Look!	Keep bikes repaired
				Left, right, left	Check tires & brakes

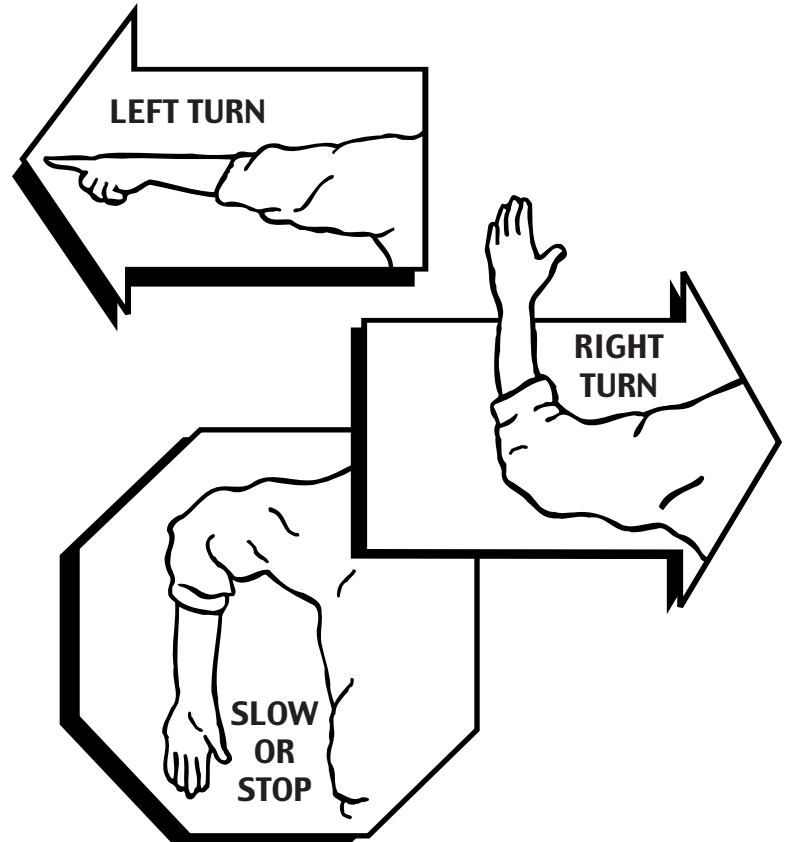

- Draw what Eddie's friends need to wear when riding their bikes.
- Draw an arrow where Eddie and his friends should cross the street.
- Put a circle around the rider who has the right size bike.
- Put an "X" on the riders with the wrong size bike.
- Draw a horn or a bell on the bike, or draw a person yelling to the pedestrian.

SAFE KIDS are no accident!

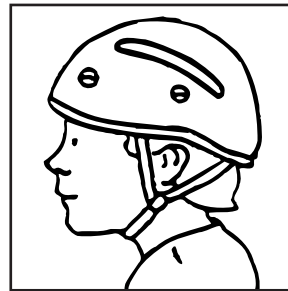

Signaling

**Simon says:
Always use
your left arm
to signal**

Helmet safety

**This is the way
you should wear
your helmet.**

Put an “X” on the helmets that do not look the same.
